

Destruction in Bluebell Wood

(What will the little b*** get up to next?)**

Here are some photographs taken yesterday (18th March 2021) by John Creasey (Our Friendly Ranger) after a visit to Bluebell Wood. Responding to a report from Ian Heath concerning a large den. You see what he found – not only a camp but a bike jump and a patch of destroyed bluebells. It took 2 hours to carefully dismantling the camp that was held together with wire and nails. A report has been passed on to the Police.

Oh! And don't forget John found a new play mate...

A larger copy of the Photograph can be found on the Selected Photograph Page!
